The term of protection has expired for the certificates listed below. The U.S. Plant Variety Protection Act no longer prohibits the unauthorized propagation of these varieties nor requires them to be sold by variety name only as a class of certified seed. However, varieties published in this list may possibly be protected under the Patent Act.

## GENERAL INFORMATION ON PLANT VARIETY PROTECTION

The Plant Variety Protection Act provides patent-like protection (plant breeders' rights) for sexually (i.e., seed) and tuber reproduced plants. The variety must be distinct from all other varieties, uniform, and stable. If the variety has been sold or used in the United States for more than one year or in a foreign country for longer than four years, then the variety is ineligible for protection. Use of the variety includes selling or disposing of reproductive or harvested material of the variety or use as a parent in a first generation hybrid.

Please submit your complete application (completed and signed application form, Exhibits A,B,C, & E, seeds, and fees) to our office before the period of eligibility expires. You may choose a representative to complete and receive all paperwork on your behalf. Current costs are given in the Regulations and Rules of Practice (Section 97.175) and on the application form.

To obtain copies of application forms, the Plant Variety Protection Act and its Regulations and Rules of Practice, please send a request including the crop type to: Plant Variety Protection Office, 10301 Baltimore Blvd., Room 500, Beltsville, Maryland 20705-2351.

Internet users now have access to the U.S. Department of Agriculture on the Plant Variety Protection Act.
